CSC 111 Course Overview

Zonghua Gu
Department of Computer Science
Hofstra University

Course Logistics

- **Course website:** <https://guhofstra.github.io/CSC111Fa26/>
- **Lectures:** MW 9:40 AM-11:05 AM, SIC 231
- **Instructor:** Dr. Zonghua Gu
 - **Email:** Zonghua.Gu@hofstra.edu
 - **Office hours:** TR 4:05 PM-6:00 PM, SIC 219

Discord Channel and Feedback Form

- Join the Discord channel:
<https://discord.gg/S9bdAhq5za>
 - IMPORTANT! Used for all announcements and online Q&A
- Course tutor
 - Samson Mathew
smathew5@pride.hofstra.edu
 - Available on discord and on-demand ZOOM meetings
- Use the anonymous feedback form anytime to provide your comments and suggestions for me.

No Textbook

- No required textbook. Exams are based on lecture slides only
- Reference book:
 - Embedded Systems with ARM Cortex-M Microcontrollers in Assembly Language and C, University of Maine <https://web.eece.maine.edu/~zhu/book/>
- Topics:
 - Introduction to load/store computation model
 - Data representation, carry & overflow
 - Memory addressing, endianness, data alignment
 - Fixed-point arithmetic implementation
 - ARM assembly instructions: arithmetic and logic operations, memory I/Os, and flow control
 - Subroutines: three approaches to pass parameters via reference, registers and stack in ARM assembly
 - Mixing C and ARM assembly: C codes call assembly codes, and assembly codes call C codes.
 - Hardware and software Interrupts, and interrupt service routines

Lab Assignments

- Three lab assignments
 - Please sign up on Canvas to form groups of 1-3 students each
- **Late Days:** Each student is allowed a total of 3 late days for this class, which may be spent in units of one day (24 hours) on any project(s) throughout the semester. Once your late days have been used up, late work will not receive any credit. Late days are intended to handle all issues, including unexpected problems such as illness.

Grading Policy

- Midterm exam: 30%
- Final exam: 40%
- Labs: 30% (10 + 20)
- Grade cutoff points are approximate and dependent on overall grade distribution
